BeatBlip Intelligent Automation Platform

Want to
maximize your
team's productivity?

Human-in-the-Loop Intelligent Automation

BeatBlip is a part of HuLoop's AI-powered Intelligent Automation suite. It is a codeless and end-to-end process automation platform that enables organizations to transform their business processes. As a matured platform, BeatBlip is packed with leading-edge features and functionalities that can be leveraged to automate not only mundane, repetitive, rule-based tasks but also highly complex and cross-functional processes. It is a proven solution that has been helping businesses automate their processes.

With BeatBlip, organizations can implement end-to-end process automation to simplify, accelerate and transform business processes. Its intuitive interface and no-code approach

Transform Your **Business Processes** with *HuLoop's BeatBlip*

BeatBlip is an intelligent, technology agnostic, and low maintenance automation solution that empowers organizations to stay ahead of the curve. The solution features many advanced and intelligent process automation features, some of which include:

All-in-one solution

Seamlessly automate processes spanning across diverse systems (Web, Mobile, Desktop, Packaged Apps, and data sources) with this one-stop automation solution.

Rapid and codeless automation

Rapidly automate complex processes, end-to-end, without writing a single line of code.

Seamless integration

BeatBlip integrates with existing systems and sub-systems and provides visibility to process execution reports.

OS / Platform agnostic

As a technology and platform agnostic solution, BeatBlip can be hosted or run on any operating system including Linux.

Superior post-deployment support

Ensure successful implementation, and maximization of ROI with AgreeYa's best-in-class customer training and support services.
