

HuLoop

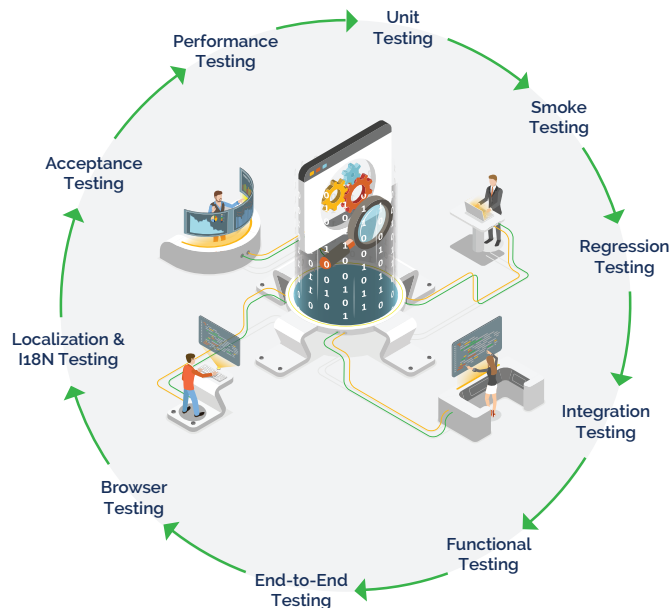

HuLoop Intelligent Software Test Automation

Save Time, Improve Accuracy,
and Increase Efficiency

An All-in-One, No Code Software Test Automation Solution

A growing number of organizations trust HuLoop Intelligent Software Test Automation to address the most daunting test automation challenges, and release quality applications faster and more confidently.

Automate Web, Mobile, Desktop, Integration, Database & Devices Testing

- Supporting parallel testing & globalization testing

AI Powered Autonomous Capabilities

- Auto-change detection
- Auto-healing
- Auto-repeat execution
- Auto-bug logging
- Auto-versioning

Supporting Agile, DevOps & CI/CD Pipelines

- Fully automated or on-demand execution

HuLoop Helps Organizations Address Common Development Challenges:

- ✓ Eliminate Poor Software Quality
- ✓ Expand Automated Test Coverage
- ✓ Eliminate Laborious Manual Testing
- ✓ Reduce Software Release Delays
- ✓ Enhance Communication, Documentation
- ✓ Reduce Testing Environments, Tools
- ✓ Improve Resource Planning, Utilization

A Platform to Meet All Your Testing Needs

HuLoop Intelligent Software Test Automation supports data-driven, parallel and localization testing for any enterprise software.

Web Testing

HuLoop simplifies testing of modern web applications regardless of the tech stack they are built in.

Mobile Testing

HuLoop's powerful mobile testing features help you verify and validate.

Desktop Testing

HuLoop can help you deliver a consistent user experience across different machines and operating systems.

Integration Testing

HuLoop enables teams to rapidly create and maintain reusable API, web services and batch tests.

Database Testing

HuLoop integrates with all the popular databases (SQL, NoSQL and Cloud databases).

Enterprise Software Testing

HuLoop supports data-driven, parallel and localization testing.
