

HuLoop

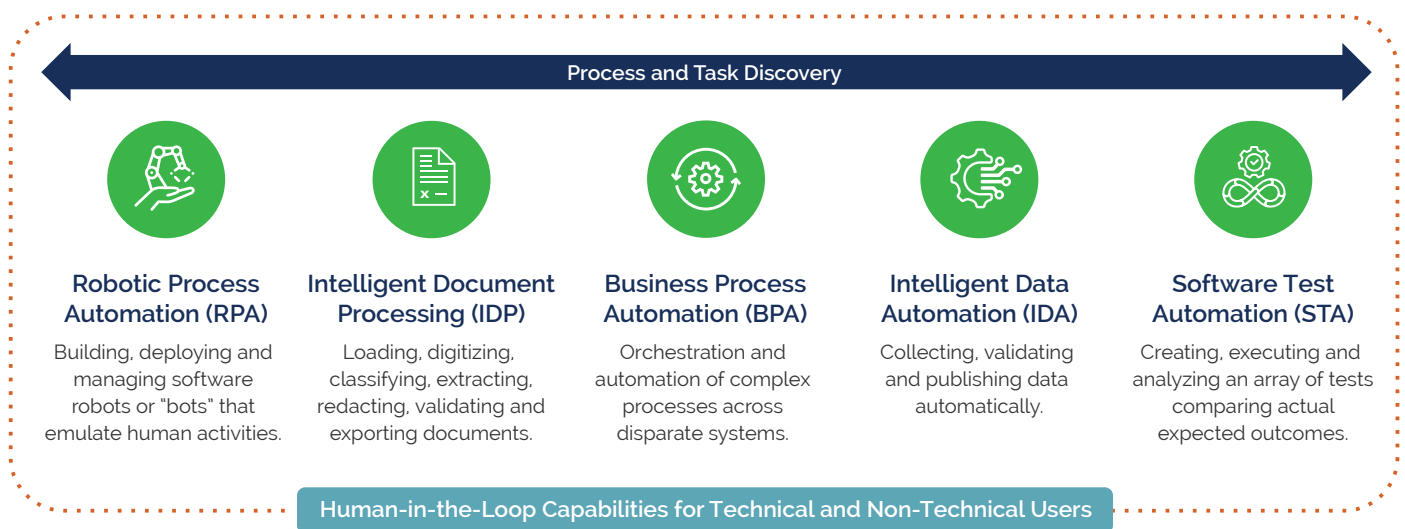

Human-in-the-Loop Intelligent Automation

Simplify Processes, Automate Mundane Tasks,
and Improve Productivity

Introducing HuLoop AI-Powered Intelligent Automation

A growing number of organizations trust HuLoop to address the most daunting automation challenges, and release quality applications faster and more confidently. HuLoop's automation solutions include the following:

HuLoop's Key Benefits

All-in-one Solution

Seamlessly automates test and business processes spanning across diverse systems (web, mobile, desktop, packaged apps, and data sources).

Seamless Integration

Integrates with existing systems and sub-systems and provides visibility to process execution reports.

Rapid and Codeless Automation

Rapidly automates complex test and business processes, end-to-end, without writing a single line of code.

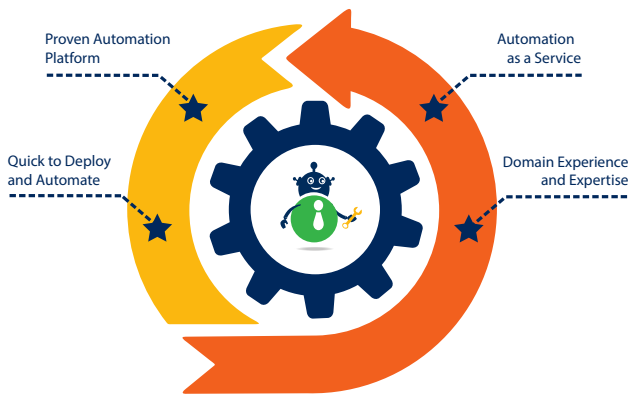

Technology Agnostic

As a technology and platform agnostic solution, HuLoop can be hosted or run on any operating system including Linux.
