

Productivity Discovery

See How Work Really Gets
Done — Then Make it Better

Ditch the Guesswork — Use Real Data to Drive Real Results

You can't fix what you can't see. HuLoop's Productivity Discovery reveals exactly how people, processes and systems work together — or don't — so you can uncover inefficiencies, spot opportunities and optimize how work gets done.

Capturing real-time activity across users, apps and workflows, Productivity Discovery gives you an end-to-end picture of what's happening, where things get stuck and what to fix first.

See the Work. Uncover Inefficiencies. Optimize Smarter.

HuLoop Helps
Eliminate:

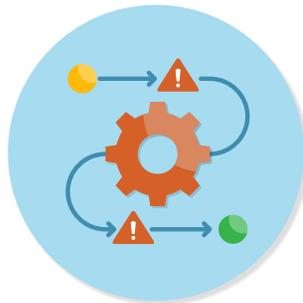

- ✓ Blind spots in how work gets done
- ✓ Guesswork and assumptions
- ✓ Manual surveys or time-tracking tools
- ✓ Compliance gaps and undocumented workarounds
- ✓ Hidden inefficiencies

Productivity Isn't a Mystery Anymore

With HuLoop's Productivity Discovery you can:

See how work flows across people, processes, and platforms

Identify bottlenecks, redundancies, and compliance risks

Spot process variants and uncover behavior patterns

Get data-backed recommendations to automate and simplify

Key Benefits

End-to-End Visibility

Capture a 360° view of productivity — across people, processes, and systems.

See. Understand. Act.

Visualize productivity trends, uncover inefficiencies, and identify where to improve.

Zero Disruption, Total Insight

No surveys, no slowdowns. Just passive, real-time data.

From Micro to Macro

Zoom in on individual workflows. Zoom out for an org-wide snapshot.

Actionable Recommendations

Know exactly what to fix, where to automate, and how much productivity you'll gain.

Faster, Smarter Work Optimization

Turn insights into action — and scale what works across the business.
